

*"Randi is a beautiful soul with a heart of gold. I met her after finding out about my daughters fatal prenatal diagnosis earlier this year. She was so kind and understanding that she immediately put me at ease. I could share my heart with her without any fears of being judged. When my daughter unexpectedly came early, Randi was there at the hospital uplifting and encouraging everyone in the room. She remained in the room to be with my family and daughter even after it being quite late and she had been there for a long time. Even after 3 months of my daughter's passing, Randi is still a wonderful presence in my life. I am forever grateful for all she has done and is still doing for me. If you ever hesitate in calling Randi, please don't. It will be the best decision you have ever made."*
